Summary of Activities (by academic semester):

SPRING 2022:

Shortly after our election, Liz scheduled the new officers' meeting on Thu., **March 3** at 7 p.m. via Zoom, welcoming and transferring information between returning and new members. On April 6, we shared the next issue of our newsletter, inviting iSchool colleagues to partake in our events (we employed Zoom registrations and made recordings viewable for a month afterward; most activities this year were virtual and/or masked; no CEHD Research Day). Jackie and Liz hosted the year's first Speakeasy event on Thu., **April 21** at 7 p.m. with 11 students attending, a fantastic feature with MLIS student Elinor De La Torre, archivist at Lucasfilm (*at right*).

Sadly one of our MLIS archives students, Carol Williams, was honored by the university at [MU Remembers](#) on Friday, April 22, on Francis Quadrangle and in Peace Park. ([Honor with Books](#))

Across the LIS Program, LISGSA hosted its Elections and Spring Event with [Dr. Jerome Offord](#), Associate University Librarian for Antiracism at Harvard University, on [Wed., May 4 at 6 p.m.](#) and 25 people attended.

MLIS student Tiana Stephenson collaborated with Nell Tirone MLIS'21 in the fall and spring in contributing metadata from the KOPN manuscript collection at [SHSMO](#), and participated in the Venus Pompeiana Project with Dr. Buchanan and colleagues in June.

SAAMUSC members volunteered as judges for the National History Day in Missouri virtual state contest in April.

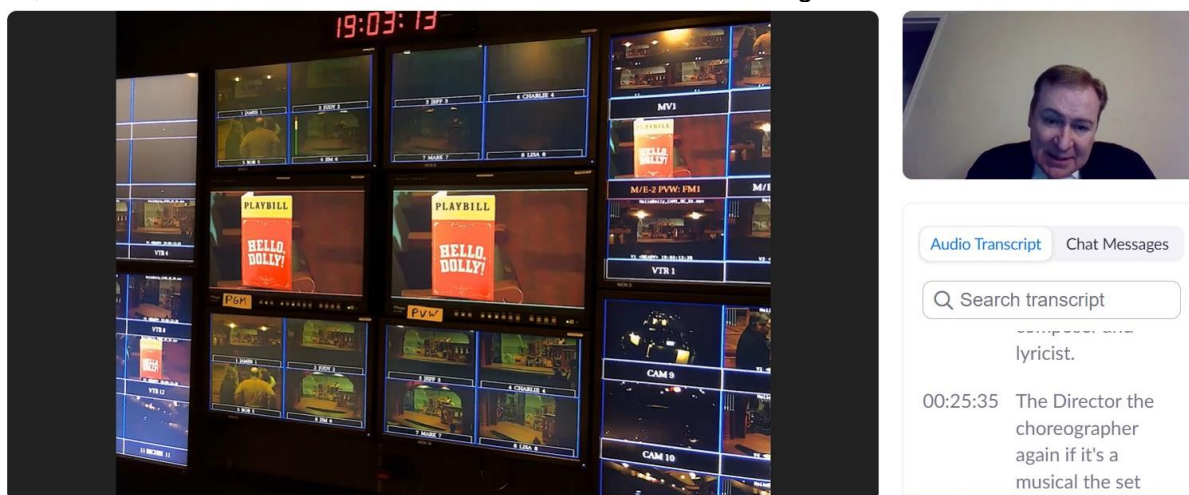

The MU Planning, Design and Construction archives were featured in the Wed. April 13 edition of [Show Me Mizzou](#).

SAAMUSC hosted a Speakeasy on Thu., **May 26** at 6 p.m. Katherine welcomed Sam Rushay, Archivist at the Harry S. Truman Presidential Library & Museum in nearby Independence, MO for a view on their archives, recent exhibit renovations, and the archival profession. Officers stayed after the Speakeasy to meet and debrief.

SAAMUSC hosted a Speakeasy on Thu., **June 16** at 6 p.m. Liz welcomed MLIS student Elizabeth Bloodworth (*at right*) – Special Collections/Reference Assistant at Bradley University – who discussed digitization projects and her use of acrylic, community partnerships, and her contributions to the Smithsonian exhibit [“Places of Invention”](#) about the mass production of penicillin.

SAAMUSC hosted a Speakeasy on Thu., **July 21** at 6:30 p.m. with 9 students attending live. Kevin welcomed Mizzou Theatre alum Patrick Hoffman – the Director and Curator of the Theatre on Film and Tape Archive (TOFT) (*below, right*), and Wendy Norris – Assistant to the Director of TOFT, at the New York Public Library for the Performing Arts, for a standout virtual orientation to their current, two years-delayed [50th anniversary exhibition](#) in their space at Lincoln Center, the founding contributions of [Betty Corwin](#), recording operations for Broadway and Off-Broadway productions before and since March 2020, and studios actor encounters in the Lucille Lortel Reading Room.

A cameraperson's view from inside the truck, during a show recording (above, left).

Dr. Buchanan and another Faculty Advisor joined MLIS student Kaitlin Howard in the 2022-23 PBPF cohort for the early August [Immersion Week](#) at George Blood LP near Philadelphia, PA.

Our own MLIS'22 Hallel Yadin and MLIS student Jane Bartley each presented a Graduate Student Poster at **SAA 2022** respectively on accessioning and provenance. Dr. Buchanan participated in the [Exploring New Frontiers in 21st Century Archival Education](#) IMLS National Forum in July.

FALL 2022:

Graduate Professional Council (GPC) is the official student government for all graduate, professional, and post-baccalaureate students at the University of Missouri in Columbia, MO. Dr. Buchanan successfully solicited interest from SISLT iSchool students in serving as an MU Graduate Professional Council (GPC) Representative, coordinating all four positions to master's and doctoral students for the 2022-23 General Assembly monthly meetings before its first (of eight) on 6 September.

Congrats to Kanu Singh and Alex Urban on Conference Presentation Travel Awards (CPTA) in 2022!

Congrats [also](#) to Dr. Buchanan & colleagues.

MEET JACKIE VOGT

Hi, everyone! My name is Jaclyn Cruikshank Vogt (she/hers) and I am the SAAMUSC treasurer. This is my second year in the MLIS program, with an Archival Studies emphasis. I am the photo librarian at the Nebraska Game and Parks Commission and project director of the Nebraskaland Magazine Digital Archive, a joint initiative between the commission and the Center for Digital Research in the Humanities at the University of Nebraska-Lincoln. Prior to enrolling in Mizzou, I earned a MA and PhD in English with a specialization in Women's and Gender Studies from UNL. I enjoy exploring Nebraska's outdoor spaces; trying out new recipes; and spending time with my toddler, spouse, and our two cats. Looking forward to exploring archives with you!

JACKIE'S BOOK RECOMMENDATION

New to Liberty by Demisty D. Bellinger

"With deft, insightful prose and great compassion, DeMisty D. Bellinger beautifully captures the private longings, struggles, and complex moments of bliss of three women in rural Kansas. The characters in *New to Liberty* are so richly drawn, their voices and inner lives so intimate and real, I felt like these women were sharing their secrets just with me, and I wanted to hear the stories of all the women who ever passed through Liberty, Kansas. I loved this book." —Elizabeth Crane, author of *The History of Great Things*

UNIQUE COLLECTIONS

MUSEUM OF BAD ART: SOMERVILLE, MA

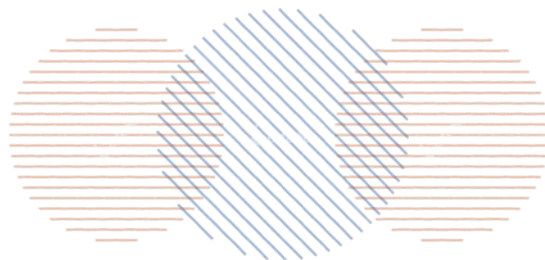

This is a unique and witty collection of “bad art” located in the basement of a historic movie theater in Somerville, MA. There are over 700 pieces in the permanent collection, but about 20-25 pieces are on display at a time. The museum's mission is "to bring the worst of art to the widest of audiences."

MEET LIZ SETTERBERG

Hello, all! My name is Liz Setterberg (she/her), and I am the President of SAAMUSC. This is my first semester in the MLIS program, and I'm excited to pursue the Archival Studies emphasis. My passion lies at the intersection of storytelling and archives. I want to help preserve people's histories, culture, knowledge, and art forms, so the general public can gain a wider range of perspectives and learn from them. I currently live in Salt Lake City, UT and love hiking, camping, and exploring the outdoors in my spare time.

LIZ'S BOOK RECOMMENDATION

Wild Flowers by Joel Meyerowitz

"Joel Meyerowitz is one of my favorite photographers, and I love how he captures small moments of everyday life. This particular book is full of photos that span cities and years, all with the common theme of flowers interpreted in different ways. I love this catalog of images that showcase diverse people and places but are grounded in one common theme."

MEET KEVIN DAO

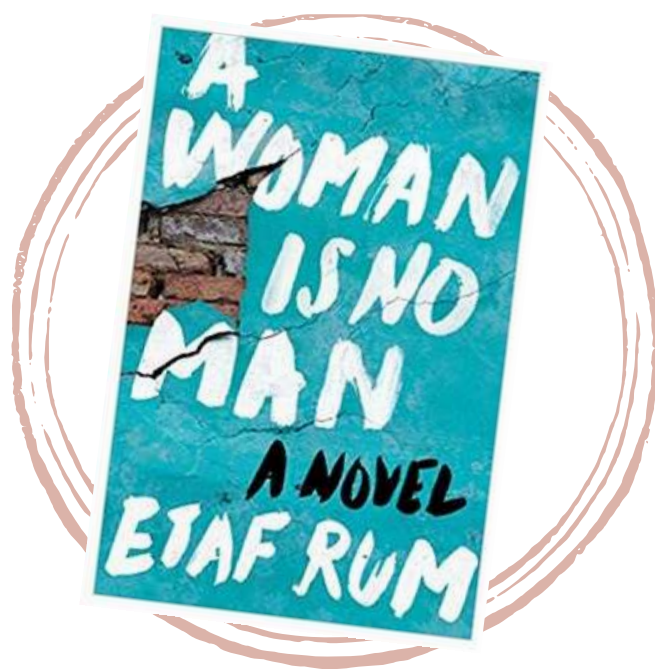

My name is Kevin Dao (he/him/his), and I am the secretary of SAAMUSC. This is my second semester in the MLIS program with an emphasis in archival studies. I previously worked for ten years as an image archivist at various art galleries in New York City and am currently a library page in research and access services at the New York Public Library for the Performing Arts. I have a BS in photography and would love to work in the future with a photo archive in support of underrepresented communities. In my leisure time (which is rare), I like to read, visit museums, attend concerts, and spend time in nature.

KEVIN'S BOOK RECOMMENDATION

A Woman is No Man: A Novel by Etaf Rum

"This novel tells the story of three generations of Palestinian-American women struggling to express their individual desires within the confines of their Arab culture in the wake of shocking intimate violence in their community."

THE MAGNUS ARCHIVES

This podcast is a weekly horror fiction anthology podcast examining what lurks in the archives of the Magnus Institute, an organization dedicated to researching the esoteric and the weird. Head archivist Jonathan Sims attempts to bring a seemingly neglected collection of supernatural statements up to date, converting them to audio and supplementing them with follow-up work from his small but dedicated team.

SMITHSONIAN OPEN ACCESS

“Open access is a unique opportunity to bring Smithsonian collections to people in new ways, to engage with the public, and provide important context for challenging 21st-century issues. With Smithsonian Open Access, we’re increasing the public’s ability to use millions of digital assets—2D and 3D images and data.

Open Access items carry what’s called a CC0 designation. This means the Smithsonian dedicates the digital asset into the public domain, meaning it is free of copyright restrictions and you can use it for any purpose, free of charge, without further permission from the Smithsonian. As new images are digitized, if they are determined to be copyright-free, the Smithsonian will dedicate them as CC0 ongoing.”

MEET MATTHEW FRYE

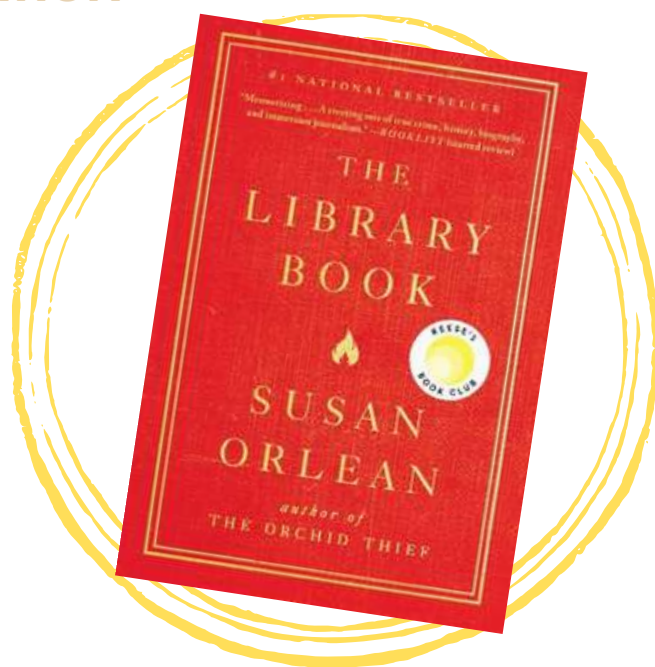

Hello, there! My name is Matthew Frye (he/him) and I am one of SAAUMSC's Program Chairs. This spring I finished my fifth semester in the MLIS program at the University of Missouri with an emphasis in Archival Studies. Hailing from the Arkansas town of Searcy with a bachelor's degree in History, I loved the narratives that helped tell stories and provide rich context with which to understand the world better. Volunteer and student work in my alma mater's library showed me the behind-the-scenes processes and piqued that curiosity and appreciation, leading me to the MLIS degree. Above all else, I think a genuine curiosity and love of learning is what I want to instill in my library work. I currently live in my hometown of Searcy, AR and enjoy cooking, video essays and other educational YouTube videos, video gaming, and my 3-year old niece: Ruby.

MATTHEW'S BOOK RECOMMENDATION

The Library Book by Susan Orlean

"Susan Orlean investigates the mysteries, cultural impact, and tragic stories behind the 1986 Los Angeles Public Library fire. Within is an examination of the history of the library, the unexpected (or unseen) societal impact of a public library, and the pitiable tale of the major suspect of the LAPL fire: Harry Peak. Professional and personal, this is a poignant perspective on the printed medium we so often take for granted."

-Matthew

MEET SUSAN RALLS

My name is Susan Ralls (she/her), and I am one of the communication chairs for SAAMUSC. This is my first semester in the MLIS program with an emphasis on archival studies, and I am excited to be involved with this organization. Prior to becoming a student at Mizzou, I was an elementary school teacher. When I am not taking care of our two kids or studying for class, I enjoy reading, experimenting in the kitchen, and researching the story of our historic home in Houston.

SUSAN'S BOOK RECOMMENDATION

"Based on new and extensive research, Sonia Purnell has for the first time uncovered the full secret life of Virginia Hall--an astounding and inspiring story of heroism, spycraft, resistance, and personal triumph over shocking adversity. *A Woman of No Importance* is the breathtaking story of how one woman's fierce persistence helped win the war."

UNIQUE COLLECTIONS: MUSEUM OF EVERYDAY LIFE

"The Museum of Everyday Life is an ongoing revolutionary museum experiment based in Glover, Vermont. Its mission is a heroic, slow-motion cataloguing of the quotidian—a detailed, theatrical expression of gratitude and love for the minuscule and unglamorous experience of daily life in all its forms. We celebrate mundanity, and the mysterious delight embedded in the banal but beloved objects we touch everyday."

Hello All! My name is Susan Rosprim (she/her). I am one of the Program Chairs. I am halfway through my MLIS program with an emphasis in archival studies. After teaching and working as a school librarian for over 20 years, I am delving into my next career in museum studies as an archivist. My primary interest is in preservation. I live in Albuquerque, New Mexico where we have 300 days of sunshine and very few bugs! In my spare time, I scrapbook, golf, read and cook. I look forward to working with all of you this year in SAAMUSC!

SUSAN'S BOOK RECOMMENDATION

The Eight by Katherine Neville

The Eight is the story of the Quest for a fabulous, gold-and-silver, bejeweled chess set that once belonged to Charlemagne and has been buried for a thousand years.

At the dawn of the French Revolution, when soldiers are looting the abbeys and monasteries, the set is dug up from an abbey in the Pyrenees and scattered around the world. This begins a 200-year-long chase across the globe with 64 characters, all seeking the pieces in a giant chess game of cosmic proportions.

UNIQUE COLLECTIONS: AFRICAN AMERICAN LIBRARY AT THE GREGORY SCHOOL

LEADER SPOTLIGHT

Meet Beth Stewart

My name is Beth Stewart (she/her), and I am one of the communication chairs for SAAMUSC. This is my second year in the MLIS program with an emphasis on archival studies. After working as a cartographer for many years I decided to pursue my MLIS to reconnect with my love of research and libraries. I live in the Kansas City Metropolitan area and enjoy visiting the local art and history venues. In my spare time I can be found reading, knitting, and hanging out with my miniature Dachshunds.

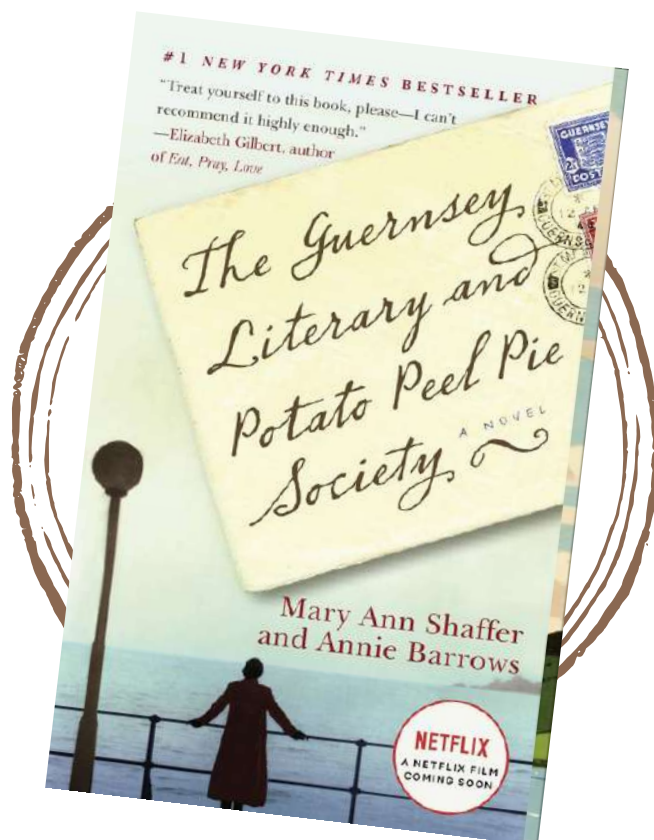

BETH'S BOOK RECOMMENDATION

The Guernsey Literary and Potato Peel Pie Society

"Set in Post World War II England, writer Juliet Ashton is looking for the subject of her next book.

A letter from a man she has never met from the island of Guernsey opens up a new world to her.

As she learns about her correspondent and his literary society that developed during the German occupation of the island, she learns about farming, friendship, the importance of books in one's life and about herself."

RESOURCES FOR YOU

The British Library Sounds Online

"The British Library has a collection of over 90,000 audio recordings. Some of them are the familiar musical performances and oral histories, but you can also listen to like...accents, and vehicle sounds, and just all the weird things you'd expect from an archives called "sounds online."

LEADER SPOTLIGHT

Meet Katherine Herrick

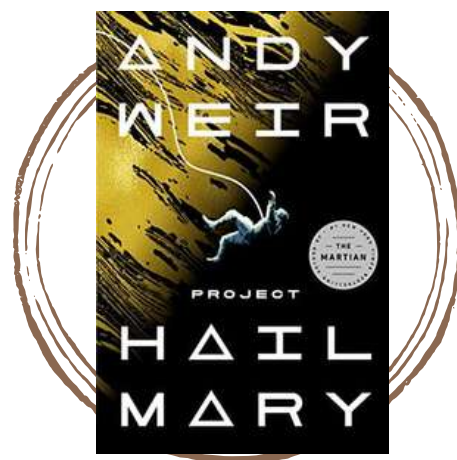

My name is Katherine Herrick (she/her), and I'm the Vice President of SAAMUSC this year! I am from Kansas City, Missouri and decided to continue my education at Mizzou in the MLIS program after earning my bachelor's degree in Journalism there. I am currently in my last semester of the program, and I am hoping to work in an archive after graduation. For the past two summers, I have interned at NASA's Johnson Space Center in Houston, Texas; this experience has furthered my interest in archival studies and taught me so much about the history of space exploration, which has been a growing interest of mine. In addition to learning about space, I also enjoy reading, exercising, cooking, and playing with my two cats.

KATHERINE'S BOOK RECOMMENDATION

Project Hail Mary by Andy Weir

"Ryland Grace is the sole survivor on a desperate, last-chance mission—and if he fails, humanity and the earth itself will perish.

Except that right now, he doesn't know that. He can't even remember his own name, let alone the nature of his assignment or how to complete it. All he knows is that he's been asleep for a very, very long time. And he's just been awakened to find himself millions of miles from home, with nothing but two corpses for company. His crewmates dead, his memories fuzzily returning, Ryland realizes that an impossible task now confronts him. Hurtling through space on this tiny ship, it's up to him to puzzle out an impossible scientific mystery. And with the clock ticking down and the nearest human being light-years away, he's got to do it all alone. Or does he? "

NASA Johnson Space Center's Oral History Project

"Established in 1996, the goal of the NASA Johnson Space Center Oral History Project (JSC OHP) is to capture history from the individuals who first provided the country and the world with an avenue to space and the moon. Participants include managers, engineers, technicians, doctors, astronauts, and other employees of NASA and aerospace contractors who served in key roles during the Mercury, Gemini, Apollo, Skylab, and Shuttle programs. These oral histories ensure that the words of these pioneers live on to tell future generations about the excitement and lessons of space exploration. Oral history interviews began in the summer of 1997, and since that time more than 1001 individuals have participated in the NASA Oral History projects in more than 1,299 oral history sessions."
